Ayer's Cherry Pectoral, For the rapid ours of Conglis, Colds, Hearreness, Bronchitis, Wiscoping Cough, Asthma, and Fonsemption, is universally known as the best remedy ever yet liso recod for every variety of Pulmonary Disease. S wide is the field of its usefulness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicina of its kind is too apparent to escape observation; and where its virtues are known, the public no longer hesitate what anti-lete to employ for the distressing and dangerous affections of the pul-monary organs which are incident to our climate. By its timely use many, nay, almost all, attacks of disease upon the lungs or threat are arrested, and thus are saved many thousands every year from a premature grave. No family should be without it, and those who do neglect to provide themselves with a remely which wards off this dangerous stars of discusses, will have cause to deplots it when it is too late. Proofs of the surprising etheacy of the Cherry Pactoral need not be given ery neighborhood. But those who wish to read the statements of those whose whole health has been restored, and whose lives have been saved by its ase, will flud them in my American Almenac, which the agents below named have to furnish gratis for every one. When the Mormons started for Utah, some years ago, B—, now Col. B—, accompanied them, and as the Mormons had the greatest confidence in the Colonel, and he was a man of very prepossessing appearance, large, portly, dignified, and, it is said, "could talk the hind sights off a gross of rifles" against time—they deposited all their funds with him. The amount was over sixty thousand dollars, and the deposits were made by each Mormon "in the name of the Lord." After they had reached their destination, and some time had elapsed, they wanted some money to use in making improvements, &c., and went to the Colonel, when for a day or two the following conversation fre-

### Pocal Affairs.

THE APPROACHING SEASON .- We have a rare prospect ahead in view of the approaching spring business. Our merchants have given immense country trade which depends upon street, opposite the Galt House. Louisville for immeliate supplies, will find larger and more diversified stocks in the warerooms of their favorite houses than heretofore. Our multiplied thousands of readers throughout Kentucky, Indiana, Tennessee, and the Southern and Southwestern States, will find the cards of the most promineut and reliable dealers in our columns from time to time, and will. of course, be influenced more or less by the information which they find therein.

Our local merchants should not lose sight of the importance of this medium of communication with country dealers. A trifle invested in this way may secure them trade and profits to the amount of thousands. There is vet space in our Weekly paper for a limited number of merchants' and manufacturers' cards. When it is remembered that the Damocrat has much the largest circulation of any Democratic paper in the Southwest, its superiority as an advertising medium will be too apparent to require enforcement.

PLEA FOR OUR OLFACTORIES.—So long as our Gas Company disseminates gas for purposes of Illamination, we will take their wares at a stipulated price per cubic foot, confide in their own meters for the count, and commend them for their efforts; but when they adulterate their gas fountain with matters which emit the foulest and most offensive odors, and deal out the vil lainous compound through their innumerable little burners, we bid them "stop right there." The sense of smell 's probably the most refined and delicate of the whole five, and there are no terms in the English language to express the sentiments of those organs when they are one outraged. There is a sentiment in an upturned nose beyond the power of orthography to express, and the observant eve read volumes in the nasal protuberances of the audience at the concert at Mozart Hall, on Wednesday evening. We saw, upon fair countenances. many a classic Grecian, determined Roman. subdued aquiline, or more modern pug, elevated in sublime disgust for the circumumbient air: and the music lost more than half its sweetness as it came up to the gallery, constrained and filtered through an atm sphere sufficiently offensive and malarial, apparently, to induce a fatal epidemic. We are informed that this terrible infliction is owing to the fact that the Gas Com pany are using a quantity of east-off fatty mat ter in the generation of gas, which they obtained at the pork-houses, very appropriately called offal, for it makes awful gas; and thus, to effect a trifling economy during the prevailing high price of coal, our sense of smell has become not only a burden for the time, but our health is actually endangered. In behalf of seventy five thousand noses, we elevate our own nose and voice against the innovation.

We see that the Gas Company meditates nisterial improvements and extensions. We suggest an improvement in the material used for the manufacture of gas, and an abatement of the intolerable nuisance to which we have been subjected for some time past. But, in order to eradicate the filthy odor which hangs arom es, it will doubtless be necessary first to autject them to an inward purification of soapauds and a subscruent ringing with Colomic water, ere the fixtures will be fitted to receiv the legitimate source of light, the unadulterated

ter time than now for settling that question. After brief debate the resolution was tabled. The Scuate concurred in the House resoluion for the appointment of a committee to inform Buchanan and Breckinridge of their elecion. Adjourned.

House .- Mr. Jones, of Tenn., offered a resoation that a committee be appointed, consisting I two members of the House and one member f the Senate, to wait mon James Buch man nd John C. Breckinridge and inform them that they have been duly elected Presidenet and Vice President of the United States for four years from the 4th of March, 1557

Mr. Jones said this resolution was agree lup- N & LON

Mr. Humphrey Marshall knew that those ge tlemen were elected, and was as much in favor of making that declaration as any gen could be, but desired the preliminary business transacted agreeably to the forms of the Constitution. Yesterday the President of the Senate read a report from the tellers, and after that, while the vote of Wisconsin was chal result. He denied the correctness of that pro ceeding. The two Houses must, in convention, in order to produce a result and adjust the question in controversy.

Mr. Jones, of Tenn., merely pointed to the fact that Wisconsin had not east her electoral vote on the day designed by law. After an ineffectual motion by Mr. Wal-

oridge to lay the resolution on the table was Mr. Dunn offered a resolution declaring Jas. Buchanan and John C. Breekinridge duly elected, and further that the vote of Wisconsin

could not be counted without a violation of the

provisions of the Constitution, not having been cast on the day designated by law. The Speaker declared the resolution out of lection of a President and Vice President was made vesterday. To revive the resolution

had constitutionally approved the Journal.

Mr. Dunn said it should be distinctly stated whether the vote of Wisconsin was counted or Mr. Stanton moved the correction of the ournal so as to show that Mr. Orr moved that the vote of Wisconsin be rejected; that the President of the Scuate ruled the motion out if order, and that while both llouses were to

gether, on motion of a Senator, the Senate re ired for consultation, and in that mamer the onvention was broken up. The House sustained the Speaker's decision The vote was then amounced, and the mo n made yesterday by Mr. Aikin, to lay on the able the resolution reported from the committee n elections, declaring Mr. Whitfield not en titled to his seat, as delegate from Kan as. Mr. Covode, speaking from the experience of 30 years, argued that the difficulties of manufacturers are not to be overcome by taking the nty oli of foreign wool, but on the contrary they will be increased as the effect would be to lessen production at home. He spoke of the iron interests of Pennsylvania, and advocated a protection policy generally.

The Committee rose. Colfax presented a resolution of the Legislaure of Indiana, asking that sugar be admitted free of duty. Adjourned.

WASHINGTON, Feb. 12. In the event of the failure of Congress to pass a bill to reduce the revenue Mr. Camp bell, of Ohio., will press a financial measure now under consideration in the Committee of Ways and Means, depositing the surplus revenue, reserving two millions of dollars, with the everal States in proportion to the federal ratio of representation, or about seventy-live thou-sand dollars for each member. The States to pledge their faith for the safe keeping of the oney, and to refund it when required for the urposes of the general government. It is pro-osed to pay half the surplus on the 1st of July, und the remainder on the 1st of Octobor.
